

CAPACITY BUILDING AND DEVELOPMENT SERVICES

ABOUT US

According to Warren Buffett, "Price is what you pay; value is what you get!" At Dinamico Consulting, we fully understand that value is a subjective concept, varying from person to person. Our mandate is twofold: first, to comprehend the unique definition of value for each individual client, and second, to deliver that value and more at a minimal cost.

Our business approach at Dinamico Consulting is built upon a foundation of core values: Trust, Empathy, Resilience, Relationship, and Accountability (TERRA). We firmly believe that by upholding these values, we can cultivate strong relationships with our clients, partners, and team members, fostering long-term success together.

Dinamico Consulting is a brand that prioritizes the implementation of innovative strategies and impeccable execution in its service delivery. Our objective is to become the ultimate destination for our clients, surpassing their expectations and ensuring a level of satisfaction they won't find elsewhere. In essence, we redefine the concept of value in service delivery.

Our business model operates on two main dimensions: Capacity Building & Development Services (CBDS) and Brand Support and Representation Services (BSRS). Through these interventions, we aim to provide comprehensive solutions that enhance our clients' capabilities and support their brand development.

CAPACITY BUILDING AND DEVELOPMENT SERVICES

Since 2013, our subsidiary brands have been instrumental in organizing a series of highly successful executive and targeted training programs, as well as capacity building and development services.

DINAMICO TUTORS

Dinamico Tutors specializes in providing targeted and customized academic-based training sessions for participants in various curricula, including British and Montessori, among others. Our services cover a wide range, spanning Pre-School, Basic School, and High School categories, as well as A-Level and Professional Examinations such as ICAN, ACCA, CITN, CIPM, GRE/GMAT, and local and international certifications. We also cater to adult education needs.

In addition to our academic offerings, we provide a diverse range of extra-curricular and non-academic activities. These include swimming, musical instrument training, dance classes, aerobics, calisthenics, and board games. We also collaborate with our partner brands to offer coding and design training. Our training sessions can be conducted as private classes at home, office, selected locations, or through virtual classes, accommodating one or more participants based on agreed terms.

CHESS CHALLENGE**

Let's Do Business . . . What Next?

We would be happy to do business with you. This is possible in a few steps as follows:

STEP 1 Contact us through any of our available channels.

STEP 2 Our representatives would respond to you and help you to determine the perfect package for your school.

STEP 3 Upon your request, we would share our service level agreement containing all relevant information for your review and sign off.

Once this is completed, we are good to go!
We look forward to welcoming you on board!
